

## World War I

Over the next week, you are going to be learning about different aspects of life during WWI. The following are some things we are going to look at:

- Causes of WWI

- New Technology of the War

- Changes of laws/policies

- Propaganda used during the war

- Effects on Americans living in the United States

- Treatment of Immigrants - both at war and in the U.S.

Each day is going to be very similar - we are going to go over a few notes and then either complete an activity with primary documents or watch the Lost Battalion.

As a culminating activity/project you are going to be writing an essay to address the following question:

World War I had many affects on the people of the United States. Explain how America was affected socially, politically, and economically during the war.

This paper needs to be at least 2 typed pages long. It must have a cover page and a reference page. I will show you how to use the template to type your paper. This is due on March 28th. It must either be emailed to me or printed out before class starts. Asking to do either when you walk into class on that Friday will result in an automatic loss of a letter grade. This paper will replace the midterm that you are not taking.

Checklist - If you can mark yes to each of these you should earn at least a B

	Self	Teacher
Title page in correct format	_____	_____
Header and page numbers	_____	_____
Reference page	_____	_____
References in correct format	_____	_____
Thesis - explains what your paper is going to be out.	_____	_____
Introduction - lays out the organization of your paper.	_____	_____
Topic Sentence - each paragraph has a topic sentence	_____	_____
Details - each topic sentence is supported with at least three examples. The examples need to be very specific.	_____	_____
In text citations - each paragraph should have 2-3 in text citations showing where your got your information from.	_____	_____
Conclusion - the paper is summarized, but your topic sentences and not simply repeated.	_____	_____
